

ELEVATE STUDIOS

COVID-19 UPDATE

In light of the current health risks associated with COVID-19, Elevate Studios has implemented the following safety protocols as recommended by the CDC and other public health organizations to ensure teacher and student safety.

To minimize the spread of any infectious diseases. Our lobby is currently closed to any persons not currently enrolled as students in an Elevate Studios offered program.

We have currently adapted our check-in and check-out process to take place outside. When arriving at our studio, please look for an Elevate team member who will guide you through our drive through drop-off and pick-up line.

Prior to entering our studio, all students and teachers will be expected to undergo a temperature check and medical questionnaire. Students experiencing any associated symptoms with COVID-19 or a temperature greater than 100.4 will be asked to refrain from classes until such circumstances cease.

All students who are able, will be asked to wear a face covering for the entirety of their participation in programs at Elevate Studios.

Increased physical distancing will be implemented in all Elevate Studios activities when possible.

Additional sanitizers and hand-washing stations will be available to students throughout their participation in programs at Elevate Studios.

Additional cleaning and sanitization procedures will be executed before, during and following all Elevate Studios program activities.

These protocols will begin effective immediately and remain in effect until further notice.
